Elsevier

Author index

Carley, K.M.
Designing organizational structures to cope with communication breakdowns: a simulation model 19
Charles, M.T. and Settle, A.K.
United Flight 232: Sioux City's response to an air disaster 77
Cochran, P.L., *see* Mahon, J.F.
Czada, R.M.
Muddling through a nuclear-political emergency: multilevel crisis management in West Germany after radioactive fallout from Chernobyl 293
De Marchi, B.
Public information about major accident hazards: legal requirements and practical implementation 239
Denis, H.
The complexity of technological disaster management: technical, sociopolitical and scientific issues 1
Doepel, D.G.
Crisis management: the psychological dimension 177
Drabek, T.E.
Microcomputer usage in disaster preparedness and response 93
Fischer, F.
Risk assessment and environmental crisis: toward an integration of science and participation 113
Lagadec, P., *see* Pauchant, T.C.
Mahon, J.F. and Cochran, P.L.
Fire alarms and siren songs: the role of issues management in the prevention of, and response to, organizational crises 155
Meshkati, N.
Human factors in large-scale technological systems' accidents: Three Mile Island, Bhopal, Chernobyl 133
Mitroff, I.I., *see* Pauchant, T.C.
Pauchant, T.C., Mitroff, I.I. and Lagadec, P.
Toward a systemic crisis management strategy: learning from the best examples in the US, Canada and France 209
Powell, T.C.
Shaken, but alive: organizational behavior in the wake of catastrophic events 271
Settle, A.K., *see* Charles, M.T.
Smith, D.
The Kraken Wakes: corporate social responsibility and the political dynamics of the hazardous waste issue 189
Tombs, S.
Injury and ill-health in the chemical industry: decentring the accident-prone victim 59
Verplanken, B.
Public reactions to the Chernobyl accident: a case of rationality? 253

Industrial Crisis Quarterly 5 (1991) 331–333
Elsevier

Subject index

Accident victims
Injury and ill-health in the chemical industry 59
Airline accidents
Sioux City's response to an air disaster 77
Bhopal chemical accident
Human factors in large-scale technological systems' accidents 133
Catastrophic events
Organizational behavior in the wake of catastrophic events 271
Chemical accidents
Injury and ill-health in the chemical industry 59
Chernobyl nuclear plant accident
Human factors in large-scale technological systems' accidents 133
Public information about major accident hazards 239
Muddling through a nuclear-political emergency 293
Public reactions to the Chernobyl accident 253
Corporate social responsibility
The Kraken Wakes 189
Crisis communications
Designing organizational structures 19
Crisis management
Fire alarms and siren songs 155
Muddling through a nuclear-political emergency 293
Toward a systemic crisis management strategy 209
Crisis management: the psychological dimension 177
Crisis prevention
Fire alarms and siren songs 155
Cross-cultural studies
Toward a systemic crisis management strategy 209
Disaster response
Sioux City's response to an air disaster 77
Microcomputer usage in disaster preparedness 83
Emergency management
Sioux City's response to an air disaster 77
Microcomputer usage in disaster preparedness 93
Emergency planning
Sioux City's response to an air disaster 77
Environmental crisis
Risk assessment and environmental crisis 113
Hazard information
Public information about major accident hazards 239
Hazardous wastes
The Kraken Wakes 189
Health and safety issues
Injury and ill-health in the chemical industry 59

Human factors
Human factors in large-scale technological systems' accidents 133
Issue management
Fire alarms and siren songs 155
Microcomputers
Microcomputer usage in disaster preparedness 93
Nuclear emergency
Muddling through a nuclear-political emergency 293
Operator error
Injury and ill-health in the chemical industry 59
Organizational behavior
Organizational behavior in the wake of catastrophic events 271
Organizational crises
Fire alarms and siren songs 155
Organizational structure
Designing organizational structures 19
Participative research
Risk assessment and environmental crisis 113
Political dynamics
The Kraken Wakes 189
Political emergency
Muddling through a nuclear-political emergency 293
Post-traumatic stress
Organizational behavior in the wake of catastrophic events 271
Preparedness
Microcomputer usage in disaster preparedness 93
Psychological issues
Crisis management: the psychological dimension 177
Public information
Public information about major accident hazards 239
Public reactions
Public reactions to the Chernobyl accident 253
Rationality
Public reactions to the Chernobyl accident 253
Risk analysis
Risk assessment and environmental crisis 113
Risk assessment
Risk assessment and environmental crisis 133
Risk communication
Public information about major accident hazards 239
Risk management
Risk assessment and environmental crisis 113
Scientific issues
The complexity of technological disaster management 1
Simulation model
Designing organizational structures 19
Sociopolitical issues
The complexity of technological disaster management 1
Technological accidents
Human factors in large-scale technological systems' accidents 133

Technological disaster
The complexity of technological disaster management 1
Three Mile Island nuclear plant accident
Human factors in large-scale technological systems' accidents 133
Warning signs
Fire alarms and siren songs 155
